Chronicle PIP Module

The Chronicle PIP Module is a unique management system designed in collaboration with police officers to provide a structured and consistent development and management database for investigative skills. It delivers the capability to monitor professional investigator skills and competency at all PIP levels in the police service and in other sectors of law enforcement. The overarching aim of Chronicle PIP is to record and monitor in one place the registration, examination, training, workplace assessment and accreditation to a national standard at each level.

The Chronicle PIP module ensures that the process set out by your force, collaboration or region is followed consistently and remains current, providing confidence in accountability and risk management under increasing public expectations.

This module gives officers confidence that their records are accurate and will withstand any level of scrutiny. Managers can trust Chronicle to let them know who is accredited with what competency and what capacity the force has, both now and in the future, to address this vital need in Policing.

With resources stretched and an increased scrutiny of skills and qualifications, there has never been a more important time for your force to invest in the Chronicle PIP Module.

FEATURES AND BENEFITS GENERIC TO ALL CHRONICLE MODULES	
Designed in collaboration with police officers	Tailored to meet the operational demands of your force, collaboration or region.
Robust audit trails	Provide fully auditable and accurate records for any investigation. Protect the individual and your organisation and reduce litigation risk as well as the ability to provide fast, cost-effective responses to FOI requests.
Available on Police ICT and G-Cloud procurement frameworks	Save tender costs and streamline the procurement process whilst reducing your procurement risk.
Feed critical capability & capacity data directly to NPoCC	Eliminate the need for spreadsheets and reduce the administrative burden. Save time and cost whilst providing accurate, real-time information.
Skills exporter and interfaces available	Save time and cost by eliminating double-keying and ensuring data is consistent across systems. Link skills to duties to ensure you have the right people with the right skills in the right place.

CHRONICLE SYSTEMS

FEATURES AND BENEFITS SPECIFIC TO THE CHRONICLE PIP MODULE

Instant overview of currently PIP trained officers and staff at each stage of PIP process, linked to College of Policing and NPCC role profiles	Instantly view capacity and capability across your entire force or collaboration. Overview of all staff allows for identification of future training needs based on accurate data. Save money by providing only necessary training.
Automated accreditation process, setting time limits and alerts for each stage of the PIP accreditation process	Reduce administration commitment for assessors and internal verifiers. Allow candidates to manage their own portfolios and evidence submissions electronically. Assessors can view a dashboard showing candidates' progress and manage duration of candidate journey through each stem of initial accreditation.
Configurable role profiles	Ensure compliance with National Role Profiles. Ensure compliance with local or regional STRA role profiles. Easily amend or add new role profiles according to local, regional or national requirements.
Automated notifications are sent to officers and other nominated recipients to ensure they are aware of progress to help keep all PIP staff competent	Reduce management and administrative requirement on Crime Training by ensuring that candidates are notified of expiry and submission requirements for their own portfolios and that they are responsible for completion. Increase public safety by ensuring all deployed staff are competent. Reduce cost by ensuring you train only staff who need training. Ensure maximum effective deployable workforce by ensuring staff remain competent.
Integrated training calendar	Allow Training Managers to define future course and CPD activity. Enable Resource Management Units to allocate students. Ensure appropriate trainer allocation for all training activity. Highlights if trainers, venues or students are double booked ensuring efficient use of resources. Easily plan and view all training requirements across all PIP levels.
Automatic calendar notification system	Automatically sends a reminder of a forthcoming event, to the student. Allow resource management units to place students on published training events to enable them to maintain operational cover.
Training analysis	See how many training events you have delivered over a period of time. Analyse pass and failure rates by different criteria. Provide accurate training delivery data for internal review and FOI requests.
Record trainer CPD	Ensure regulatory compliance. Protect forces reputation by ensuring training is delivered by competent instructors. Evidence instructor portfolios.
